OBJECTIVE

Seeking for a Entry level role to explore my knowledge and improve my skills, Passionate about implementing and Business requirements into technical solutions and ready to learn new technology. Looking to start the career as an Entry Level Software Developer with a reputed firm driven by technology.

EXPERIENCE

Python internship

Alric Infotech Pvt Ltd

Helped to make an in-depth knowledge on python as well as back-end coding using django. Learned in detail about front-end coding as well as web designing. Since I am interested in designing, this made much easier for me.

Project: Online Electronic Shop website

PROJECTS

Android mobile application learning theories for primary school children
